0/100

Výsledky vzdelávania

The task of course is to give students basic geographic and geopolitical orientation in the contemporary world. Based on the analysis and knowledge of the particular structure of the political system, economy and geography determine the geopolitical position of individual states and important geopolitical regions. It also pointed to factors that shape the present and future status. The course is primarily focused on working with the basic geographical, political and economic data of individual countries and regions. The secondary focus is professional work with a map, which will be mainly part of the seminar. The student should after completion of the subject should demonstrate knowledge of the policy (procedures, political figures), the economy (industry, agriculture) and basic geographical data of individual countries (regions).
